

Curtain fabrics

Wool

Key advantages

Lantal curtain fabrics made of 100% wool have the following compelling advantages:

- **Premium curtain for customized designs and colors**
- **Adds warmth and elegance to the cabin**
- **Regulates air humidity: absorbs moisture and returns it to cabin air**
- **Flame-retardant**
- **Compliance with all airworthiness requirements**

Properties

Composition

100% wool.

Designs and colors

This curtain type is developed jointly with the customer. Individual, customer-specific designs and colors for signature interiors.

Pleating

Lantal's 100% wool curtains can be permanently sew-pleated or plain-sewn as specified by the customer.

Weight

The conditioned weight is approx. 270 – 320 g/m², 7.9 – 9.4 oz/sy, tolerance ±5%.

Width

Approx. 137 cm, 54 in.

Specifications

Flammability, smoke/toxicity

Lantal fabrics are permanently flame-resistant in accordance with FAR/CS 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

Cleaning

Dry cleaning as per Lantal cleaning recommendations.

Service lifetime

The specific service lifetime depends largely on the airline's interior philosophy (colors, quality), routing (long-haul, short-haul and charter flights), geographical routes, load factors and cleaning attitudes.
